Subject: Ref: 13NP0048EIA

Tarset & Greystead Parish Council would like to submit the following comments regarding the above application:

The Parish Council would like the opportunity to respond again when a full application has been submitted following the environmental opinion; however at present they would like to note that within the NNPA local development framework policies state that no commercial wind farms are allowed within the National Park unless of benefit to the community and the height proposed of 74m also exceeds guidelines.

Kind Regards

Kate Chadwick
Parish Clerk
Tarset & Greystead Parish Council
