Subject: RE: Planning Application Consultation 14NP0051 Diamond Cottage, Tarsset, Hexham, Northumberland, NE48 1RN

Dear Michael,

14NP0051 - Proposed installation of 16 ground mounted photovoltaic panels to generate electricity at Diamond Cottage, Tarsset, Hexham, Northumberland, NE48 1RN

Thank you for consulting me on the above application. The location for the proposed panels is set within the cartilage of the grounds at Diamond Cottage and I note that they are of a dark grey finish and will stand approximately 800mm off the ground. Views of the solar array from the south are likely to be screened by the property itself and thus I do not believe that there will be a significant effect upon the landscape character, views or Dark Sky Park status of this part of the National Park. No notable trees will be affected by the ground instillation of the panels or underground cabling proposed and as such I do not have any objections to this application.

regards
