Subject: Lowstead windows

Dear Mr Miller

I am writing in response to your letter of August 7th 2014 about planning permission for replacing the south facing windows of Lowstead, Wark, Hexham NE48 3DP.

This is also following on from communication with Jon Batey, our builder/joiner, who I asked to look into providing replacement windows more in keeping with the stipulations for the windows outlined in your letter.

Jon discussed the windows with you over the phone yesterday, and he said you need an email from me stating that we should withdraw the current planning application as it stands and submit a new one with information about the design of sash windows that Jon could supply and fit for us.

I wish to withdraw our current application for replacement windows to the south elevation of Lowstead and will send in an amended application after Jon Batey comes up with a design that you would consider acceptable.

I hope that is what you need from me for now.

yours sincerely

Janet Chippindale
