Dear Chris,

I have no objections to this application, but a few comments. Although it is close to the Hesleyside Park SSSI I do not think the development will have any direct impact on this site. Regarding indirect effects, it is possible that collecting wood to use on fires and stoves could have an adverse impact on the site, but I note that the design and access statement states that wood is to be provided to the hut and information given to the visitors regarding the importance of the site. I therefore do not have an objections to the development, but suggest that we put a condition relating to no wood collection in the vicinity of the hut or in the SSSI.

If you wish to discuss this further, please contact me.

Yours sincerely,
Gill Thompson
