4. **Assessment**

The proposal consists of new replacement overhead cable to be installed at Carraw Farm, Humshaugh. The proposed cable runs from the south-western corner of the farmbuilding on the north side of the Military road and meets the existing telegraph pole to the western end of the steading boundary.

Proposed cable does not appear as a new feature within the landscape and has a background of mature established vegetation.

The cable would not represent an unacceptable addition to the landscape being essentially the replacement of an existing line and consequently it is recommended no objections be raised.

### **RECOMMENDATION**

That the following representations are made:

Northumberland National Park Authority raises **no objection** to this notification and **does not** wish the Secretary of State to consider the application.
