Dear Chris,

The proposed location is in close proximity to the route of public bridleway 8 in Rochester parish. This route co-exists with the main vehicular access route to the property and I would envisage therefore that the plans will not impact on public use of this route.

I have no objection to the proposals on the condition that the Public Right of Way in the vicinity is protected throughout. The planned works must have no effect on accessing this route. No action should be undertaken to disturb the surface of the path, obstruct the path or in any way prevent or deter public use of the path without the necessary legal diversion or closure order having been made.

Yours sincerely
Lorna Lazzari
