Your Ref: 14NP0102

Dear Mr Stanworth

Planning Permission for construction of 1150m brash roads at Hesleyside Hall Northumberland.

Thank you for consulting us as part of the planning process. We do not consider potential track construction on this site will have an impact on ancient woodland providing

- The conditions detailed by Natural England in the consent to work within the SSSI are followed.
- The work is completed to the UK Forestry Standards with special consideration given to the Forest and Water guidelines

These comments are based upon information available to us through a desk study of the case, and a site visit with the agent from a previous application to complete the proposed works and our general local knowledge of the area.

We hope these comments are helpful to you. If you have any further queries please do not hesitate to contact me.

Yours sincerely

Ian Everard
Woodland Officer
