Subject: RE: Planning Application Consultation 15NP0009 Walltown Quarry Picnic Site, Brampton, Greenhead, Northumberland, CA8 7HZ

Dear Chris,

15NP0009 - The erection of a timber framed and clad rangers' store and a new borehole to be sunk west of the existing visitor center at Walltown Quarry Picnic Site, Brampton, Greenhead, Northumberland, CA8 7HZ

Thank you for consulting me on the above application. I wish to make the following comments on the potential landscape, lighting and tree implications associated with this proposed development.

- Due to the nature of the site and scale and design of the proposed storage shed I do not believe that this proposal will have a significant effect upon the landscape character or views of this part of the National Park.
- The applicant has indicated within the application form that no new external lighting will be required as a result of this proposed development. The dark skies status of the National Park will therefore not be threatened by an increase in light pollution resulting from this application.
- From the details provided within the application form the proposed development will not affect any notable trees or hedges. I do not believe that a tree survey or tree protection measures are required in this case.

I have no objections but if you have any questions in relation to the above please do not hesitate to contact me.

regards
