Dear Mr Jones

Town and Country Planning Act 1990

**Application Reference
Number : 15NP0010EIA**

**Proposed Development : Environmental Impact Assessment Screening
Opinion in respect of proposed track
improvements**

**Location : North from Cold Law to Broadstruther, near
Langleeford, Wooler, Alnwick, Northumberland**

The above application has now been made valid and the Development Management file is now available. Copies of the application forms and supporting plans and drawings will be placed in the filing cabinet in the Front Office. The application and related plans may also be viewed on our planning website at

<http://nnpa.planning-register.co.uk/plaPlanningAppDisplay.aspx?AppNo=15NP0010EIA>.

<i>Specific items identified</i>	<i>Y/N</i>	<i>Detail</i>
Listed Building	N	
Battlefield	N	
Hadrian's Wall World Heritage Site	N	
Scheduled Ancient Monument	N	
Historic Environment Record (Linear)	N	
Historic Environment Record (Point)	N

I would be grateful to receive your comments within 14 days of the date of this email.

NORTHUMBERLAND NATIONAL PARK AUTHORITY

ARCHAEOLOGICAL NOTIFICATION

Relating to Planning Application

Application Reference Number 15NP0010EIA

Description Environmental Impact Assessment Screening Opinion in respect of proposed track improvements at North from Cold Law to Broadstruther, near Langleeford, Wooler, Alnwick, Northumberland

1. Archaeological Implication

No Archaeological constraint

Possible/Probable Archaeological constraint

Definite Archaeological constraint

2. Recommendation

The nature of the proposal has the potential to damage significant archaeological remains, however, consultation of the Historic Environment Record and Register of Scheduled Monuments has not identified any known archaeological remains which might be damaged or disturbed by the proposal in the location specified.

Much of the proposed site is situated above 350m above ordnance datum, where significant archaeological remains generally lie on or below this level in the wider area.

The closest Scheduled Monument, SAM 29315 *Prehistoric unenclosed hut circle settlement and field system on Snear Hill* is over 250m from the line of the proposed track.

A constructive approach would welcome the proposal to limit the scope of the work to an existing, deeply rutted track and using a soil reversal technique which would avoid importing material the provenance of which has the potential to be uncertain.

3. Reason for Recommendation

Given the absence of known or limited potential for unknown archaeological remains and the distance from known archaeological remains I have no reasonable objection to the proposals.

Signed :

Chris Jones
