Dear Mr Jones

Town and Country Planning Act 1990

**Application Reference
Number : 15NP0036**

Proposed Development : Provision of permanent scour protection to highway bridge. Associated soft engineering works to minimise scour and gravel deposition. Removal of old railway abutment, raising crest of flood embankment to improve risk to flooding to adjoining land

**Location : Westnewton Bridge, Kirknewton, Wooler,
Northumberland, NE71 6XF**

The above application has now been made valid and the Development Management file is now available. Copies of the application forms and supporting plans and drawings will be placed in the filing cabinet in the Front Office. The application and related plans may also be viewed on our planning website at

<http://nnpa.planning-register.co.uk/plaPlanningAppDisplay.aspx?AppNo=15NP0036>.

NORTHUMBERLAND NATIONAL PARK AUTHORITY

ARCHAEOLOGICAL NOTIFICATION

Relating to Planning Application

Application Reference Number 15NP0036

:

Description Provision of permanent scour protection to highway bridge. Associated soft engineering works to minimise scour and gravel deposition. Removal of old railway abutment, raising crest of flood embankment to improve risk to flooding to adjoining land at Westnewton Bridge, Kirknewton, Wooler, Northumberland, NE71 6XF

1. Archaeological Implication

No Archaeological constraint

Possible/Probable Archaeological constraint

Definite Archaeological constraint

2. Recommendation

No objections

3. Reason for Recommendation

The lack of evidence for an earlier bridge structure which might have been impacted upon by the works and the information provided by the applicant suggest no potential harm to archaeological deposits.

Signed :

Chris Jones
