Dear Chris,

I have looked at the location and plan for the site maintenance/office compound and have no objections. The footprint of this area was assessed as part of the ecological survey. The survey indicated that this area is improved grassland. In the sequence of build it indicates that the area will be reinstated back to grassland at the end of the main build, however there is no time scale to this and I would suggest that we add this as a condition or get clarification.

Yours sincerely,  
Gill Thompson
