Dear Ms Adams

16NP0042 & 16NP0043 LBC

Please find attached Application for approval of details reserved by condition covering these planning approvals

The suggested mortar mix is NHL 5 Natural Hydraulic Lime as supplied by Conserv in Millrigg Meadow see www.lime-mortars.co.uk

This comes in ready to mix bags of lime and sand so the proportions are assured without further testing and it is CE certified.

I have mixed up a sample which I can deliver to your offices if requested, otherwise it is available here on site similarly I have available a reclaimed Welsh slate from a batch currently available from the builder's merchant and can deliver it to your office if required

Yours sincerely

David Watkins

P> cheque for £28.00 enclosed.
