

DELEGATED DECISION REPORT

Application Reference Number	16NP0087
Description / Site Address	Retrospective - Extension to existing raised decking at Lodge 5, Otterburn Hall, Otterburn, Northumberland, NE19 1HE
Expiry date of publicity / consultations	23 September 2016
Last date for decision	25 October 2016

Details of Proposal

Retrospective planning permission is sought for the removal and replacement of timber decking at Lodge 5, Otterburn Hall.

Replacement decking as constructed at Lodge 5, Otterburn Hall

Lodge 5 is a single storey holiday lodge, granted consent under planning reference 87NP0031. The lodge and surrounding chalets occupy a large site to the north west of Otterburn Hall, known informally as the 'top site'. The site is surrounded by mature trees, separated from the Hall by the Estate driveway and buildings positioned along part of the southern site boundary. To date, approximately half of the lodges granted consent on this site have been constructed, with construction of the remaining chalets ongoing following recent sale activity.

The chalet is timber clad, sited on a breezeblock plinth with a tiled roof, elevated above ground level along the southern side. Akin to the surrounding chalets, Lodge 5 previously benefitted from an area of decking to the southern side of the property which have been removed as a result of the proposed works and the decking replaced.

The replacement decking is located to the southern side of the chalet and is elevated approximately 0.7m above ground level, topped by 1m high timber balustrading. The timber is mid/dark brown in colour, matching the appearance of the lodge, with timber cladding of the same colour below.

Relevant Planning History

87NP0031 *Siting of 13 static caravans and 22 timber chalets.* Approved with conditions

93NP0009 *Variation of condition no. 7 of planning permission 87/E/419 to permit varied occupancy period for approved chalets.* Approved with conditions

Consultation/Representations

Otterburn Parish Council: No response received

NNPA Historic Environment Officer: No response received

No representations have been received as a result of the notice displayed at the site on 02.09.2016.

Assessment

The main issues to be taken into consideration in the assessment of this application are:-

- The Principle of the Development;
- Design, Landscape and Visual Impact;
- Tranquillity and Amenity;
- Impact upon Cultural Heritage; and
- Highways and Rights of Way

The Principle of the Development

The National Planning Policy Framework makes clear that a presumption in favour of sustainable development is at the heart of decision making. Policy 1 of the NNPA Core Strategy seeks to ensure that development proposals will conserve or enhance the special qualities of the National Park (landscape character, tranquillity, cultural heritage, geodiversity and biodiversity), demonstrating high quality design and sustainable construction. The effects of the proposed development on these qualities are discussed in more detail later in this report.

The proposed replacement decking is not considered to adversely impact upon the special qualities of the Park due to its relatively small scale, design and inherent nature as a replacement structure, albeit larger than the pre-existing area of decking. The proposals would thus meet the criteria set out in Core Strategy Policy 1 and the NPPF.

Design, Landscape and Visual Impact

Core Strategy policy 3 promotes the principles of sustainable development, requiring sustainable design and construction in order to conserve and enhance the special qualities of the National Park.

View facing west towards Lodge 5

The proposed replacement decking is considered to be in keeping with the overall appearance of the timber chalet, and comprises a smart addition to the building relative to the pre-existing area of decking which, akin to many surrounding properties, had become dilapidated and scruffy. The design and appearance of the proposed decking further replicates the character of the host and surrounding chalets, all of which benefit from areas of timber decking with timber balustrading, and thus appears as a complimentary and sympathetic addition.

Whilst the overall footprint of the proposed decking is acknowledged to be larger than the pre-existing decking, it is not considered that this increase in size has a detrimental impact upon the overall appearance of the surrounding area, and is in keeping with the general scale of other decked areas to chalets on this top site.

A number of recent applications for proposed replacement decking on the Otterburn Hall top site have been subject to a condition requiring the external faces of the decking to be stained or painted

dark brown in order to match the overall appearance of the lodge. Such a condition is not considered necessary in this case, as the decking has recently been painted mid/dark brown to match the colour of the host lodge.

It is acknowledged that the development would be visible to other users of the top site. However, considering the relatively small scale, nature, design and use of timber for the proposed decking, it is not considered that the development would significantly impact upon the landscape character or views of this part of the National Park. The development is thus considered to accord with policy 20 of the Core Strategy and NPPF.

Tranquillity and Amenity

As no new external lighting is shown as part of the proposal, the tranquillity of the Park would not be adversely affected. The proposal therefore accords with Core Strategy policy 19 in this respect.

Due to the nature of the proposed decked area and use of the wider site, this may have some level of impact upon the amenity of adjacent chalets, particularly that of the lodges directly to the east and west. Notwithstanding this, consideration must be given to the existing area of decking to both Lodge 5 and all other lodges on this site, and the level of impact upon amenity resulting from this. On balance, whilst the proposed area of decking is somewhat larger than the existing area of decking, it is not considered that this would impact significantly upon the established level of amenity enjoyed by surrounding chalet occupiers. As such, this application is considered acceptable in terms of impact upon residential amenity and thus accords with Core Strategy policy 3 and the NPPF.

Impact upon Cultural Heritage

Due consideration has been given to any impacts of the application upon cultural heritage and the historic environment of the National Park, particularly given the setting of the application site within the grounds of Grade II Listed Otterburn Hall and associated Listed outbuildings and historic Otterburn Battlefield.

When assessed in context to the established level of impact resulting from the existing top site development, it is not considered that the proposed enlarged area of decking would impact detrimentally upon the surrounding designated heritage assets. The development thus accords with Core Strategy policy 18 and the NPPF.

Highways and Rights of Way

The proposal would not impact upon the safety of the surrounding highway network. No Public Rights of Way would be affected by the proposal. The development therefore accords with Core Strategy policy 3 and the NPPF.

Recommendation & Conditions

It is recommended that retrospective conditional permission is granted subject to the following conditions:-

1. The development hereby permitted shall be carried out in accordance with the following approved plans and documents:
 - Application form, dated 24th August 2016
 - Site Location Plan, dated 26th August 2016
 - Proposed Site Plan (Drg. No. 005), dated 24th August 2016
 - Proposed Ground Floor Plan (Drg. No. 006), dated 24th August 2016
 - Proposed South and North Elevation (Drg. No. 007), dated 24th August 2016
 - Proposed East and West Elevation (Drg. No. 008), dated 24th August 2016
 - Photographs, dated 24th August 2016

Reason: For the avoidance of doubt, to enable the Local Planning Authority to adequately control the development and to conform with policies 1, 3, 5, 18, 19 and 20 of the Northumberland National Park Authority Core Strategy & Development Policies Document (Core Strategy) and the National Planning Policy Framework (NPPF).

Informative Notes

1. This planning permission is granted in strict accordance with the approved plans. It should be noted however that:
 - (a) Any variation from the approved plans following commencement of development, irrespective of the degree of variation, will constitute unauthorized development and may be liable to enforcement action.
 - (b) You or your agent or any other person responsible for implementing this permission should inform the Northumberland National Park Authority's Development Management team immediately of any variation from the approved plans and ask to be advised as to the best method to resolve the matter. Most proposals for variation to the approved plans will require the submission of a new application.
2. This Planning Application is granted subject to conditions and it is the owner and the person responsible for the implementation of the development who will be fully responsible for their compliance throughout the development and beyond. If there is a condition that requires work to be approved prior to the commencement this is called a 'condition precedent'. The following should be noted with regards to conditions precedent:
 - (a) If a condition precedent is not complied with, the whole of the development will be unauthorized and you may be liable to enforcement action.
 - (b) In addition if a condition precedent is breached, the development is unauthorized and the only way to rectify the development is the submission of a new application. If any other type of condition is breached then you will be liable to a breach of condition notice.
