Dear Chris,

In terms of public access, there is one public bridleway in close proximity to the proposed location and there is a significant area of open access land surrounding the property. Greenhead public bridleway 24 heads north from the eastern side of the property, however I would envisage that the proposals should not impact on this public right of way or other access opportunities in the area.

Whilst any construction works are ongoing, care should be taken to not obstruct access to this right of way in the area or in any way prevent or deter public use of the path without the necessary legal diversion or closure order having been made.

Yours sincerely
Lorna
