Dear Colin,

I refer to my response with respect to the original application 17NP0123 and as such have no further comment to make.

Yours sincerely
Lorna Lazzari

Dear Colin,

In terms of public access, there is one public footpath in close proximity to the proposed location. The proposed route of the underground cable trench crosses Melkridge public footpath 25 to the south east of the proposed mast location, however I would envisage that the proposals should not impact on this public right of way or other access opportunities in the area.

Whilst any construction works are ongoing, care should be taken to not obstruct access to this right of way or in any way prevent or deter public use of the path without the necessary legal diversion or closure order having been made.

Yours sincerely
Lorna
