Dear Colin,

I think I am correct in saying the only change to this application from 17NP0123 is that there is a noise assessment added. I therefore have no changes to my original comments and no objections:

I have no objections to this application. The turbines (and cabling) are proposed on an area of fell ground outside any protected areas and the farm's hay meadows. They are positioned more than 50m from any features that are likely to be used by bats as per current guidelines.

Yours sincerely,  
Gill Thompson
