About this product

This attractive outdoor lantern light is traditionally styled and features a 110 degree PIR motion detector with a maximum 12m range. Once activated, the bulb floods the area with light - welcoming guests while providing increased security outside your home. The PIR is adjustable, so you can control how long it lights up for when activated. You can also control what time it becomes sensitive to movement – this can be from dusk 'til dawn or during a specific period during the evening.

- Size H37, W14.7, D20cm.
- Weather resistant.
- Suitable for use with low energy bulbs (max 60 watts).
- Non dimmable.
- EAN: 5014838770238.
