

# The Star Inn 3

- Install woodburner flue
- Install 2<sup>nd</sup> woodburning flue

Install woodburner flue to heat pub's upstairs living accommodation

Install woodburner flue to heat pub's upstairs living accommodation.  
The flue will be installed behind the existing chimney, 1.5m from the hole in the roof. It will be a black flue with cap, very similar to the one shown.

Install 2<sup>nd</sup> woodburner flue to heat pub's function room

Install 2<sup>nd</sup> woodburner flue to heat pub's function room.  
The flue will be installed at the front of the roof in the courtyard, 1.5m high from the hole in the roof. It will be a black flue with cap, very similar to the one shown.
