Dear Tim Gates,

Installation of new vehicular access at Fell End Farm, Greenhead, Brampton, Northumberland, CA8 7HZ

NNPA Ref: 21NP0053

Our ref: P01432115

Thank you for consulting with Historic England on the planning application (21NP0053). The area proposed for the new access track is within the buffer-zone of the Hadrian's Wall World Heritage Site (WHS), though away from the areas of Scheduled Ancient Monument (in this case areas of the monument known as the Stanegate), which is located immediately to the north. As the proposed track will not directly impact on an area of Scheduled Ancient Monument the applicant will not need to apply for Scheduled Monument Consent.

We have also considered the impact on the setting of the monument. Due to the nature of the development (a track leading to a domestic dwelling which will improve road safety), and the possible presence of an earlier track at the proposed location, Historic England will not be objecting to the proposal.

However, we do note that part of the design involves the excavation of soil from the surrounding area (described in the Heritage Statement accompanying the application, section 4.0). We recommend that the applicant be reminded to avoid areas protected as part of the Scheduled Ancient Monument when undertaking this excavation work.

There may be local heritage issues for unlisted, or locally listed heritage assets. These would be best addressed by the Northumberland National Park archaeological advisor, Chris Jones.

Please feel free to contact me if you have any questions in relation to this advice.
