---

Dear Adam,

Thank you for consulting me on the proposed development at Fell End Farm.

In terms of public access, there is one public bridleway (Haltwhistle 21) on the land-holding that co-exists with the current access track in to the property. The route of this bridleway was previously located further to the west on the approximate line of the current access road proposed. This route was legally diverted in 2005 in order to afford safer access across the Military Road (B6318) and to and from bridleway 30 on the south side of the road.

I would envisage however, that as the current route of the bridleway is to be retained, then the proposals should not impact on this public right of way or other access opportunities in the area.

Whilst any construction works are ongoing, care should be taken to not obstruct access to these rights of way or in any way prevent or deter public use of the paths without the necessary legal diversion or closure order having been made.

Yours sincerely  
Lorna
