Electricity Act 1989: Overhead Lines (Exemption)(England and Wales) Regulations 2009

It is proposed to undertake the following work that is considered to be exempted from the Electricity Act 1989 by falling within the Overhead Lines (Exemption)(England and Wales) Regulations 2009:

In order to improve the reliability of the electricity supply in the local area and to bring the current electrical network in line with Health & Safety Regulations.

Northern Powergrid propose to install one pole and two wire stays.

This will involve installing one pole and dismantling part of the line. The red dot on the attached plan is the new pole and the line shown in blue is to be dismantled. The Department for Business Energy and Industrial Strategy (BEIS) guidance on these works states that minor works as above are planning exempt.

The Council/Authority is requested to indicate that it has no objection to the work being carried out by returning two copies of this Form with the Certificate completed and signed.

Yours Faithfully

For and on behalf of the Applicant
