Dear Colin,

I note that this is a resubmission with changes from 18NP0062. I do not think there is any reason to change my opinion from the previous application as there is unlikely to be any ecological impact (see my comments below) which I note have been replicated in their Design and Access statement. I therefore have no objections.

Regards,
Gill Thompson

Comments from 29/08/28 on 18NP0062:

Dear Colin,

I have no objections to this application. As I mentioned in the pre-application discussion the field is a short grazed agriculturally re-seeded grass field from the photos with low possibilities for ecological interest. The submitted plans are in line with the documents I saw in the pre-app so therefore have no reason to change my decision. The application site is down slope of the whin grassland and waxcap interest to the north and to the west of the whin grassland Allolea to Walltown SSSI so I do not think there will be any impact on these habitats.

If you would like to discuss further please get in touch.

Yours sincerely,
Gill Thompson
