Dear Jay,

I have looked at this application and the bat risk assessment and report submitted with it. I concur with the report that further survey work was not required. I have no objections to the application if the mitigation outlined in the report is made a condition including avoiding some work in the hibernation period and the inclusion of the bat box as a positive contribution to biodiversity. I note that this box is shown on the plans which is good.

If you have any queries please get back in touch.

Yours sincerely,  
Gill Thompson
