Hi Margaret, hope your well. Thanks for your email, in answer to you questions :-

The total farm area is 960 acres

The papers attached with the pre app are for the poly tunnel we propose.

The stockboard is in place of mesh sides as this would be unsuitable for horned ewes. The stockboard comes in 8ft by 4ft pieces so it would be no more than 4ft high.

I hope this answers all your questions but if you need anything further dont hesitate to get in touch.

Kind regards

Sarah

Hi Sarah

There are a few points which the Planning Officer needs answers to:-

- Question 5 on the application form – What is the area of the proposed agricultural unit ?
– That is the total area of the farm holding
- Can you confirm that the polytunnel is the brochure you sent in with the pre app
McGregor's Polytunnel, if this is the case I can copy that information onto the planning application or you can email me a copy of the brochure. I have attached the 2 documents that you sent with your pre app
- We need to know the height of the stock board of the polytunnel the attached documents shown the stock board is 1.457m, please confirm if this is the case ?

Look forward to hearing from you ASAP

Margaret
