d) Two full copies of a full closure report shall be submitted to and approved by the Local Planning Authority. The report shall provide verification that the required works regarding contamination have been carried out in accordance with the approved Method Statement(s). Post remediation sampling and monitoring results shall be included in the closure report to demonstrate that the required remediation has been fully met.

Reason: To ensure that any contaminants within the site are dealt with in an appropriate manner to afford protection to the public, in accordance with Core Strategy Policy 3 and the NPPF.

18. If during development contamination not previously considered is identified, then an additional method statement regarding this material shall be submitted to and approved in writing by the Local Planning Authority. No building shall be occupied

until the method statement has been submitted to and approved in writing by the Local Planning Authority, and measures proposed to deal with the contamination have been carried out.

Reason: To protect the environment and ensure that the remediated site is reclaimed to an appropriate standard, in accordance with Core Strategy Policy 3 and the NPPF.

19. No building hereby permitted shall be occupied until details of soakaways and/or sustainable drainage systems for surface water drainage have been submitted to and approved in writing by the Local Planning Authority. The development shall be implemented in accordance with the submitted details.

Reason: To ensure that surface water can be adequately discharged from the site without the development creating a negative impact in terms of localised flooding or pollution and to accord with Core Strategy policies 1, 3, 17 and 27 and the National Planning Policy Framework.

20. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (as amended) (or any other Order revoking or re-enacting the Order), no development permitted by Class E of Part 1 of the Order shall be carried out without the approval of a formal application to the Local Planning Authority.

Reason: To prevent subsequent development from resulting in an overdevelopment of the site, or causing harm in terms of neighbouring residential amenity, visual amenity or from impacting upon the special qualities of the National Park, in accordance with Core Strategy policies 1 and 3 and the NPPF.

Informative Notes :

1. This planning permission is granted in strict accordance with the approved plans. It should be noted however that:
 - (a) Any variation from the approved plans following commencement of the development, irrespective of the degree of variation, will constitute unauthorised development and may be liable to enforcement action.
 - (b) You or your agent or any other person responsible for implementing this permission should inform the local planning authority immediately of any proposed variation from the approved plans and ask to be advised as to the best method to

resolve the matter. Most proposals for variation to the approved plans will require the submission of a new planning application.

2. This consent is granted subject to conditions and it is the owner and the person responsible for the implementation of the development who will be fully responsible for their compliance throughout the development and beyond. If there is a condition that requires work to be carried out or details to be approved prior to the commencement of the development this is called a "condition precedent". The following should be noted with regards to conditions precedent:

(a) If a condition precedent is not complied with, the whole of the development will be unauthorised and you may be liable to enforcement action.

(b) In addition if a condition precedent is breached, the development is unauthorised and the only way to rectify the development is the submission of a new application. If any other type of condition is breached then you will be liable to a breach of condition notice.

3. **Northumberland County Council Highways – New vehicle crossing point, Type Access A, (s.184)**

You should note that under the Highways Act 1980, vehicle crossing points are required. These works should be carried out before first use of the development. To arrange the installation of a vehicle crossing point (and to make good any damage or other works to the existing footpath or verge) you should contact Northumberland County Council Highways Planning on 01670 620295.

4. A copy of the specification for NCC standard access Type 'A' is included with the decision notice.

5. **Northumberland County Council Highways – Reminder to not store building material or equipment on the highway**

Building materials or equipment shall not be stored on the highway unless otherwise agreed with the Highway Authority (Northumberland County Council). You are advised to contact the NCC Street Works Team on 0345 600 6400 for skip and container licences.

6. This planning permission is granted subject to a legal agreement under section 106 of the Town and Country Planning Act 1990.

The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against the relevant policies in the National Planning Policy Framework and the Northumberland National Park Core Strategy and Development Policies Document. Please note that this is not approval of plans under the Building Regulations. Also, this Planning Permission does not convey any approvals required under any other legislation, or override property rights held by other parties. Your attention is drawn to the notes attached. Failure to discharge planning conditions may result in the development not being authorised and subject to legal challenge.

NOTES

- (1) If the applicant is aggrieved by the decision of the Local Planning Authority to refuse permission or approval for the proposed development, or to grant permission or approval subject to conditions, he or she may by notice served within six months of the date of this notice, appeal to the Secretary of State in accordance with Section 78 of the Town and Country Planning Act 1990. Notice of Appeal may be submitted electronically via www.planningportal.gov.uk/pcs or on the Planning Appeal Form which may be obtained from The Planning Inspectorate, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN. The Secretary of State has power to allow a longer period for the giving of a notice of appeal but they will not normally be prepared to exercise this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State is not, however, required to entertain such an appeal if it appears to them that permission for the proposed development could not have been granted by the Local Planning Authority, or could not have been so granted otherwise than subject to the conditions imposed by them, having regard to the statutory requirements, to the provisions of the development order and to any directions given under the order.
- (2) If permission to develop land is refused, or granted subject to conditions, whether by the Local Planning Authority or by the Secretary of State, and the owner of the land claims that the land has become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by the carrying out of any development which has been or would be permitted, he or she may serve on the Council within the boundaries of which the land is situated, a purchase notice requiring that Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.
- (3) In certain circumstances, a claim may be made against the Local Planning Authority for compensation, where permission is refused, or granted subject to conditions by the Secretary of State on appeal or on a reference of the application to them. The circumstances in which such compensation is payable are set out in Section 114 of the Town and Country Planning Act 1990.
- (4) Please note that only the applicant has the right to appeal. Third parties have no right to appeal against a planning decision.
