LISTING DESCRIPTION

FALSTONE STANNERSBURN NY 78 NW 30/15 Ridge End II Bastle house.
C16 extended by wing to left c.1800. Large random rubble with boulder plinth; Welsh slate roof. c37 ft. x 21 ft. 2 storeys plus attic, 2 bays. Central doorway in C20 porch. Original ground-floor doorway has roll- moulded surround. Ground floor windows are sashes in late C17 double-chamfered surrounds. On 1st floor late C18 or early C19 windows with renewed sashes. One roll-moulded jamb of original 1st-floor doorway remains above door. Gabled roof with flat coping and banded end stacks. Attached to left a lower 2-bay extension with sash windows. Attached to left of this a 3-bay stable with granary over. Interior: walls c.50 inches thick.

DESIGN PROPOSALS

Our client proposes to replace the two solid timber doors on the South elevation of the farmhouse that were installed in 2006, as these are blocking daylight into the internal lobbies throughout the day, which requires constant electric lighting. These proposed traditional oak doors would match the 4-pane glazed door to the present Kitchen, although they would be in natural oak, meaning that all doors on the South elevation would be of the same design.

ACCESS PROPOSALS

Access arrangements will not change
