Ratings and reviews

Provides three separate nest boxes in one FSC ® certified timber terrace, each with its own 32mm entrance hole. Beautifully made in the UK.

RSPB nest boxes provide a safe and snug place for birds to roost and nest. Unlike cheaper alternatives, our bird houses are made from sustainable FSC certified timber and have excellent insulation properties. This makes them warm in winter and cool in summer. RSPB nest boxes are carefully designed with correct dimensions and ventilation, without perches for intruders to grip onto and threaten the occupants.

- House sparrow

Features

Measures 48 x 23 x 17cm

Advice

Which size nestbox hole for which bird?

25mm - blue tit, coal tit, marsh tit

32mm - great tit, tree sparrow, pied flycatcher, house sparrow, nuthatch, lesser spotted woodpecker. 32mm entry holes can, if you wish, be reduced to 25mm using a nest box plate (R0110).

RSPB nest boxes are made with thick FSC ® certified timber and will survive for many years, even without the use of preservatives.

If you do want to protect your nest box further, use a water-based preservative (preferably one that complies with standard EN71 part 3 as safe for children's toys). Such paint/preservative types are clearly marked on the container, and are available from DIY stores and hardware shops.

Preservatives should only be applied to the outside of the box. Apply in the winter, when there is a low likelihood of occupancy. This will allow time for any remaining volatile components to evaporate.

For more information about siting a nest box please see the Advice section of the main RSPB website.

Fittings/fixtures are not supplied with this nest box.
