Dear Adam,

I have no objections to this application.

The site lies outside of the core archaeological sensitivity area, the affected property situated in an area of 1930s semi-detached housing and adjacent to post-war housing. There is hard standing on the area of the proposed extension and the potential for archaeology surviving undisturbed is negligible.

It is considered that, on the basis of the supplied information, the impact of the proposal on the setting of designated or non-designated assets will be neutral.

Kind regards,

Chris
